

How to Know It's Time for Acctivate

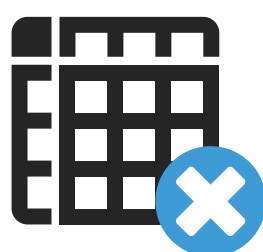

Open for business

Use spreadsheets to manage inventory + other operations

Inventory + product selection grows

Spreadsheets have become disorganized, inaccurate & inefficient

Add QuickBooks for financial management and other operations

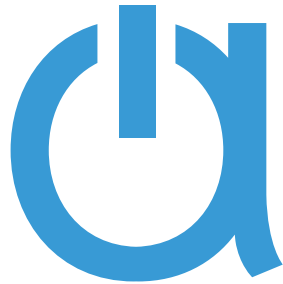

Vendor base and customer base increases

More employees need access to inventory, sales and purchase orders, etc.

QuickBooks isn't able to handle all of your inventory, users or data

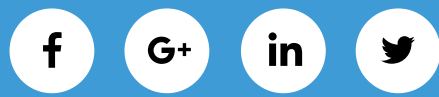

It's time for inventory management software that's **powerful, easy to use** and **affordable**
